

Setting up Application Environment

Install IBM Cloud CLI

Date	16 November 2022
Team ID	PNT2022TMID26908
Project Name	Skill/Job Recommender Application

Install IBM Cloud CLI:

Over here after created account in the IBM cloud there are some tutorials in the dashboard. Over there, get started with CLI tutorial will appear using the documentation we'll install the IBM cloud CLI.

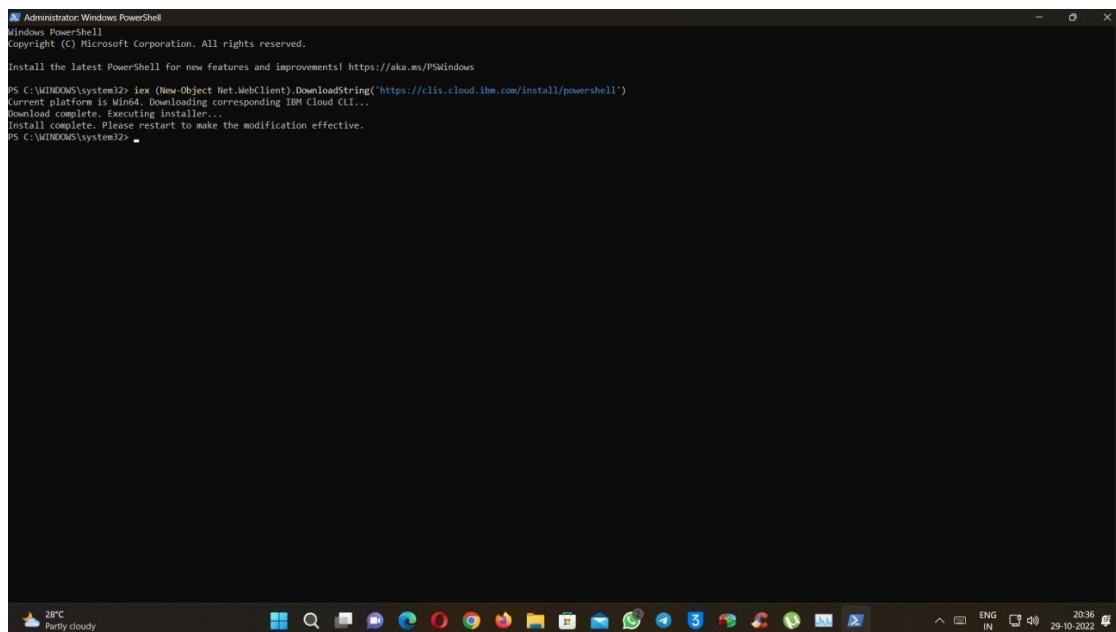

After clicking that tutorial, the instruction documentation page will open using those instructions to install IBM cloud CLI and also install some plug-in tools with the CLI for the work purpose while developing and deploying the Application.

Use the following Command to Install the IBM Cloud CLI:

```
iex (New-Object Net.WebClient).DownloadString('https://clis.cloud.ibm.com/install/powershell')
```

After Installed IBM cloud CLI the Powershell screenshot shown below:

A screenshot of a Windows PowerShell terminal window titled "Administrator: Windows PowerShell". The terminal shows the execution of the command to install IBM Cloud CLI. The output indicates that the latest PowerShell version is being installed, followed by the download and execution of the IBM Cloud CLI installer. The terminal text is as follows:

```
Administrator: Windows PowerShell
Windows PowerShell
Copyright (c) Microsoft Corporation. All rights reserved.

Install the latest PowerShell for new features and improvements! https://aka.ms/PSWindows

PS C:\WINDOWS\system32> iex (New-Object Net.WebClient).DownloadString('https://clis.cloud.ibm.com/install/powershell')
Current platform is Win64. Downloading corresponding IBM Cloud CLI...
Download complete. Executing installer...
Install complete. Please restart to make the modification effective.
PS C:\WINDOWS\system32>
```

The terminal window is set against a dark background. At the bottom of the window, the Windows taskbar is visible, showing the system clock at 20:36 on 29-10-2022, the language set to ENG IN, and the weather as 28°C Partly cloudy.
